

Privacy policy 3at-bio B.V.

3at-bio B.V., September 7th 2023

Because we see it as our responsibility to protect your privacy, we have set up a privacy policy. In our privacy policy we give you clarity about what data is collected and which data is used by us. Our privacy policy applies to all services of 3at-bio B.V. and not of third parties. By using our website you accept our privacy policy.

Personal environment

When you log in to our personal environment, we ask you for some personal data. We use this personal data to perform the services for you. This personal data is stored on our secure server. This personal data will not be provided to third parties and / or used for purposes other than the performance of our services.

Email

When you send e-mail or other messages to us, we may store those messages. This personal data is stored on our secure server. This personal data will not be provided to third parties and / or used for purposes other than the performance of our services.

Cookies

Our website www.3at-bio.nl uses "cookies" to help us analyse how users use the site. The information generated by the cookies about your use of the website is stored on our secure server. This personal data will not be provided to third parties and / or used for purposes other than the performance of our services. You can choose whether or not to accept the cookies. It is possible that some functions and services on our website will not function properly if cookies are disabled in your browser.

Purposes

3at-bio B.V. collects and uses personal data only for the stated purposes described in our privacy policy, unless approved in advance in writing by you.

Third parties

The information is only stored on our own server and is not shared with third parties.

Changes

This privacy policy is tailored to the use of and the possibilities on our website www.3at-bio.nl. Any adjustments and/or changes to our site may lead to changes in our privacy policy. The most up-to-date version of our privacy policy is always on our website. We therefore recommend that you regularly consult this privacy statement.

Disabling cookies

Most browsers are set to accept cookies by default, but you can reset your browser to refuse all cookies or to indicate when a cookie is being sent. However, some features and services on our and other websites may not function properly if cookies are disabled in your browser.

Questions and feedback
